SSI Participant Name: ______________________________________________

- Ask at least two project teams about their sustainable development goal, research and solution.
- Then ask two questions about each team’s research and solution.
  - Questions may be general or specific, but they must be pertinent to the team’s research and solution.
  - Every question in the entire assignment must be different and well-considered.
- Write down the team members’ responses after your conversation with them.

First Project Team Presenters’ Names: ______________________________________________

Answer 1: ______________________________________________

Question 2: ______________________________________________

Answer 2: ______________________________________________

Second Project Team Presenters’ Names: ______________________________________________

Team’s SDG: ______________________________________________

Question 1: ______________________________________________
Valencia College
Summer STEM Institute 2018
Poster Walk Reflection

1. What was one of the questions you were asked when you presented your group’s poster?

2. What was your response to the question?

3. As you viewed the other groups’ posters, did you find a group that chose the same sustainable development goal (SDG) as your group?

4. [Skip this question if your answer to question 3 is “no.”] How did the other group’s proposed solution compare to your group’s proposed solution?

5. Describe two things you learned from the visiting with other groups and asking questions about their work?

6. How did participating in the poster walk affect your thinking or feelings about sustainable development and your role in it?
